Bio Concepts Patient Ordering System

Start Prescribing: 2 Convenient Options

1 You order on behalf of your patient at the time of consultation

The products will be charged to your account with your pricing and, in turn, you invoice your patient the consultation fee plus the RRP of the products as they leave.

(Invoice your patient at the consult and receive an instant margin)

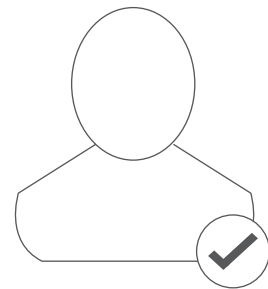

2 Your patient orders for themselves based on their script

They can take home their script and order products at the recommended retail price.

(Your patients order products at the pricing level you set. Each month you will receive a rebate based on the markup on the wholesale price)

To Set Up New Patients Simply:

- 1 Login to your account
- 2 Select 'Add Patient'
- 3 Enter their name and email
- 4 Customise the patient pricing if you wish
- 5 Select the products they have been prescribed
